

National Crime Victims' Rights Week

April 18 - April 24, 2010

The Riverside County District Attorney's Office is honored to host the 4th annual week long series of events recognizing National Crime Victims' Rights Week. Last year, there was an overwhelming response from the community, crime victims' groups, survivors, law enforcement and elected officials when more than 3,000 marched for victim rights and more than 1,000 attended the countywide candlelight vigils to remember victims lost to violent crime. Please join us during National Crime Victims' Rights Week by participating in these events to ensure "A Victim's Voice Will Be Heard".
