AUTHORITY AND REFERENCE

Government Code sections 11400.20, 13920 and 13974 authorizes the Board to repeal this proposed regulation. The proposed regulation implement, interpret and make specific Government Code section 13956.

INFORMATIVE DIGEST / POLICY STATEMENT OVERVIEW

Government Code section 13950 requires that the Board “assist residents of the State of California in obtaining compensation for the pecuniary losses they suffer as a direct result of criminal acts.”

Based on extensive public comments and a reexamination of Rule 649.56, the Board has determined that Rule 649.56 is unnecessary and should be repealed. Therefore, the California Victim Compensation Program (CalVCP) proposes to repeal Rule 649.56, Involvement in the Qualifying Crime of Prostitution. Repealing this regulation will allow a vulnerable and underrepresented segment of the population to receive mental health treatment and other benefits from CalVCP. Assisting these victims benefits the health and welfare of California residents because virtually all the victims are residents of California, and all California residents benefit when those with mental health issues receive treatment.

The Board has determined that repealing the regulation is not inconsistent or incompatible with existing state regulations. After performing a review of any related regulations, we have found that this is the only regulation dealing with this subject area. Therefore, this proposed elimination of the regulation is neither inconsistent nor incompatible with existing state regulations.

RESULTS OF THE ECONOMIC IMPACT ANALYSIS

Because CalVCP is a program which offers limited benefits for a limited group of individuals, it does not directly impact jobs or the wider economy. Furthermore, a review of CalVCP records shows that only 28 applications have been denied pursuant to Rule 649.56 during each of the past two years. The average compensation provided for each claim in 2012/2013 was approximately \$2,000.00. Therefore, assuming all other criteria for eligibility are met, allowing claims which would have been denied under Rule 649.56 will only result in an annual increase in CalVCP compensation of \$56,000.00.

Repealing this regulation will allow a vulnerable and underrepresented segment of the population to receive mental health treatment and other benefits from CalVCP. Assisting these victims benefits the health and welfare of California residents because virtually all the victims are residents of California, and all California residents benefit when those with mental health issues receive treatment.

Adoption of these regulations will not:

- (1) create or eliminate jobs within California;
- (2) create new businesses or eliminate existing businesses within California; or
- (3) affect the expansion of businesses currently doing business within California.

Disclosures Regarding the Proposed Action. The Board has made the following initial determinations:

Mandate on local agencies and school districts: None

Cost or savings to any state agency: Up to \$56,000 / fiscal year in costs

Cost to any local agency or school district which must be reimbursed in accordance with Government Code 17500 through 17630: None

Other nondiscretionary cost or savings imposed on local agencies: None

Cost or savings in federal funding to the state: None

Significant, statewide adverse economic impact directly affecting business including the ability of California businesses to compete with businesses in other states: None

Cost impacts on a representative private individual or business: The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Significant effect on housing costs: None

SMALL BUSINESS DETERMINATION

The Board has determined that the proposed regulation does not affect small businesses because the regulation only applies to individuals who apply to CalVCP.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Board must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private individuals than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Board invites interested individuals to present statements or arguments with respect to alternatives to the proposed regulation during the written comment period.
